Prophecy is foretelling an event in such detail before it happens so as to necessarily require divine guidance. The Bible is a book containing hundreds of detailed prophecies. There many distinct predictions in regard to the Son of God, Jesus Christ the Savior coming to earth the first time. Here is a list of 60 prophecies that foretold the details to identify the true Lord.

The predictions were made hundreds of years before Christ. The older the prophecy the more divine power is needed. You may be able to predict who will win the super bowl this year but that is based on much current evidence. However, how about predicting with certainty who will win it 755 years from now?

A scientist picked out 48 such prophecies and determined that the probability of one man randomly fulfilling them all is 1 in 10 to the exponent of 157. That is one followed by 157 zeros! The chance of winning a typical lottery jackpot is about 1 with 8 zeroes. (100,000,000) Yet, Jesus the Lord alone fulfilled all the prophecies including these 60!

The evidence of divine prophecy presented here is just a one portion of the proofs available to establish the divine origin of the Bible. (Not to mention the ones concerning the ups and downs of Israel and its existence and hatred in the latter times as well as the fallen condition of the "church"). Yet, these are more than sufficient to prove the inspiration of the Bible. "To Him [Jesus the Lord] give all the prophets witness ...". (Acts 10:43).
