

# Climate Change and Faith in God's Word

Does the Bible have anything to say about planet earth with its climate and duration?

**Jer. 31:35** God, with His astronomical laws, controls outer space and the seas.

**Gen. 8:22** The four seasons will continue on until judgment day.

**Rev. 6:13** This present age will end with a horrific cosmic collapse.

**Rev. 6:14** The results will be the moving of mountains and islands (earthquake).

**Luke 21:25** The results will also be the roaring of the waves and the seas.

**Rev. 8:7** There will be the burning of the green.

**Rev. 8:10-11** Waters will be polluted with a comet-like star that hits the planet.

**Rev. 16:8-9** There will be global warming from the sun and people scorched.

**Rev. 9:20-21** **Mankind contributes to this**: not by environmental pollution but moral pollution: false worship, sexual immorality, stealing, murder (which abortion is), and following the spirit world with the aid of drugs.

**Rev. 6:1,17** **God's wrath, not man, executed through the Lord Jesus is the source.**

**Rev. 20:6** But after this, the planet goes on another 1000 years under the rule of Christ.

**Rev. 19:21** Under Christ Jesus there will be the removal of the unrepentant sinner.

**Rev. 20:1-3** Under Christ Jesus there will be the removal of Satan the deceiver.

**Isa. 2, 11** **'The Christ Accord'**: Under the Lord Jesus Christ in His capital of Jerusalem there will be disarmament, peace, and a restoration of a green earth with non-carnivorous animals. Also there will be justice and equity for all with a united world faith where all happily coexist and seek God's ways in Jesus Christ.

**2Pet. 3:9-13** Then a big bang and new heavens and earth forever with righteousness.

**John 3:3** *“Except a man be born again, he cannot see the kingdom of God”.*
